Access to Confidential Information – Please Read Carefully

Authorized viewing of health information: As a registered user, the records you have access to are not relative to your login. Under HIPAA rulings, it is important that after completing your review of cases, that you log off to prevent unauthorized use of the system. Like any other patient health information, only authorized personnel in your office should have access to the system to protect you and your business. You further agree that it is your responsibility to inform our office within 48 hours of the termination of an employee who has access to Seattle Radiology PACS.

I, the undersigned, agree to the terms of use of Seattle Radiology PACS and understand the importance of protecting the health information of our mutual patients. I agree to only access those records pertaining to my patients.
